## **Your Love**

Your love is what I think about every minute  
What I awake to every day  
What I always want to talk about  
And what I always want to stay  
Your love is what makes me feel special  
What reminds me to care  
What makes me love you back  
Until I have no love to spare  
Your love is what is good  
What I desire  
What I need  
Of which I shall never tire  
Your love is special  
I don't know why you gave it to me  
I'm blessed to have you  
So one day maybe I'll see  
Your love is a treasure  
Of which I have been bestowed  
I love you as well, my darling  
Just so you know
